## RATING SERVICES

**We act for owners and occupiers of property in both the private and public sectors across the UK and Ireland. Our rating team follows a market sector approach giving us a deep understanding of each business sector and through liaising with our other service lines, we blend experience with a unique service.**

We are not only rating valuation experts; for many clients we also provide a comprehensive rate liability management service that deals with the payment of rate demands and the management of refunds on their behalf. We receive our clients' rate demands direct from the billing authority ensuring that whilst each client is in ultimate control of the process, cash flow is managed effectively.

Rating Revaluations and associated new legislation presents special challenges. Dunlop Heywood has a team of chartered surveyors and experienced rating professionals who ensure that an innovative approach is taken to ensure that the cost of business rates is minimised for our clients. We continually invest in training and IT to improve our service, providing best-in-class professional advice.
